EDUCATION

University of Guelph

Sep 2019 - Apr 2023

Bachelor's, Computer Engineering

GPA: 3.5

- Actively represented Computer Engineering students as part of the Guelph Engineering Society Council advocating for academic improvements through roundtables, between students and faculty.

PROFESSIONAL EXPERIENCE

Bell Canada

Mississauga, ON, Canada

Specialist, Technical Network Architect

Jan 2024 - Present

- Led cross-functional and migration projects with pre-sales, enterprise sales, and distributor partners to resolve issues in Salesforce and dated internal tools, resulting in improved visibility and efficiency.
- Developed a Python-based automation tool to optimize quoting workflows, reducing manual effort and accelerating sales pipeline velocity significantly.
- Partnered with security, wireless, IoT and development teams to integrate enhancements into cloud-based solutions.
- Simplified complex technical concepts for enterprise sales, ensuring alignment across business and engineering teams. Automated and optimized internal workflows to support scalable growth and reduce operational overhead.

Publicis Sapient

Toronto, ON, Canada

Software Development Engineering Intern

Jun 2022 - Aug 2022

- Developed a full-stack web application using Spring Boot, React, and Node.js to deliver a scalable and responsive user experience. Ensured seamless integration across front-end and back-end components.
- Utilized Bitbucket, REST APIs, CI/CD pipelines, Docker, Kubernetes, and MongoDB to build and deploy the application. Enabled continuous integration and deployment through Microsoft Azure for high availability.
- The platform played a key role in securing \$1 billion in media sales, demonstrating strong alignment between technical execution and business outcomes. Delivered a high-performance solution that met partner expectations.
- Worked closely with project managers in an Agile environment to meet evolving requirements. Maintained strong communication with partner stakeholders through weekly meetings to ensure product alignment.

OUTSIDE EXPERIENCE

Rakete Mentoring

Remote

Software Developer

Aug 2025 - Present

- Rakete Mentoring specializes in software development education.
- They offer personalized, one-on-one coaching programs designed to help beginners and intermediate learners become proficient developers—especially those balancing full-time jobs.
- The company provides a structured roadmap, practical guidance, and real-world application building strategies to eliminate confusion and accelerate learning. Through projects that are overlooked by the senior developers with 10+ years experience.
